

ISES Europe 2018

SAVE THE DATE

ISES Europe is a new chapter of the International Society of Exposure Science (ISES) and seeks for engaging experts to build a European Exposure Science Strategy road-map 2020-2025-2030.

Join our first workshop!

To set up working groups and discuss priorities along thematic areas such as:
regulatory exposure science | data analytics
methods and tools | exposure horizon scanning

Send us your top five priorities!

To best prepare, please email us your top five priorities/topics that for you and/or your organization are of key importance to shape Exposure Science in Europe until 2030.

19/20 JUNE 2018
