

RB has a vacancy for a

## Senior Associate – Inhalation Toxicology

based in Amsterdam, NL, or in Hull, UK.

Want your expertise to be taken seriously? As an Inhalation Toxicologist at RB, you'll have the freedom to find your own way to protect our customers (and our business).

### Your job will be to...

... be responsible for ensuring our products are safe for our customers. As an integral member of an experienced safety team, you will apply your inhalation toxicology experience to support innovation and maintenance of RB Air Care Products while protecting our consumers. You'll provide expert support to research and development. You'll lead safety assessments, report on potential hazards of our air care products and ensure we meet regulations. You'll ensure our products continue to give people healthier lives and happier homes.

### You'll succeed because...

...you're qualified in toxicology, pharmacology or a related science. You understand inhalation toxicology and can conduct risk assessments of products and chemical substances. You have excellent attention to detail and collaborate effectively across teams. You're cool under pressure and work within tight timelines. Above all, you have strong verbal and written communications skills which allows others to act on your advice.

### You'll love it because...

...you'll get to make an impact like never before. Your effort and expertise are used for ensuring consumer safety of products that will make people's lives better all over the world. Our iconic brands will provide an incredible platform for you. And our multi-national, dynamic, ownership-driven culture will help bring the very best out of you, every day. Finally, we offer a competitive salary & excellent benefits package.

### To apply...

...send your application letter and CV to Amanda Jailler ([Amanda.Jailler@rb.com](mailto:Amanda.Jailler@rb.com)) as the HR contact person. For queries, please contact Minne Heringa ([Minne.Heringa@rb.com](mailto:Minne.Heringa@rb.com), +31-6-22109168). This position can be based either in Hull (UK) or at our Schiphol office close to Amsterdam (NL). Toxicologists without inhalation toxicology background, but nevertheless interested in consumer safety assessment positions at RB, are welcome to make an enquiry and send their CV to Minne Heringa, as there is some flexibility in shuffling around some vacancies.
